

2008 Four-Tier Prescription Drug List Reference Guide

Your UnitedHealthcare pharmacy benefit offers flexibility and choice in finding the right medication for you.

This guide will:

1. Help you understand your medication choices and make informed decisions.
2. Help you understand which questions to ask your doctor or pharmacist.

What is a Prescription Drug List (PDL)?

A PDL is a list of Food and Drug Administration (FDA)-approved brand name and generic medications.

Your UnitedHealthcare pharmacy benefit provides coverage for a comprehensive selection of prescription medications. Below you will find some commonly prescribed medications for certain conditions. You and your doctor may refer to this list to select the right medication to meet your needs.

The benefit plan documents provided by your employer or health plan include a Summary Plan Description (SPD) or a Certificate of Coverage (COC). Please refer to these documents to determine which medications are covered under your individual plan.

Understanding Tiers

Prescription medications are categorized within four tiers. Each tier is assigned a copayment, the amount you pay when you fill a prescription, which is determined by your employer or health plan. Consult your benefit plan documents to find out the specific copayments, coinsurance and deductibles that are part of your plan. You and your doctor decide which medication is appropriate for you.

Tier 1 – Your Lowest-Cost Option

This is your lowest copayment option. For the lowest out-of-pocket expense, you should always consider Tier 1 medications if you and your doctor decide they are right for your treatment.

Tier 2 and Tier 3 – Your Midrange-Cost Options

Consider Tier 2 medications if you and your doctor decide that a Tier 2 medication is right for you.

If you are currently taking a medication in Tier 3, ask your doctor whether there are Tier 1 or Tier 2 alternatives that may be right for your treatment. Sometimes there are alternatives available in Tier 1 or Tier 2 that may be appropriate to treat your condition.

Tier 4 – Your Highest-Cost Option

This is your highest copayment option. Sometimes there are alternatives available in Tier 1, Tier 2, or Tier 3 that may be appropriate to treat your condition. If you are currently taking a medication in Tier 4, ask your doctor whether there are Tier 1, Tier 2, or Tier 3 alternatives that may be right for your treatment.

Compounded medications, medications with one or more ingredients that are prepared “on-site” by a pharmacist, are classified at the Tier 3 level. However, if any one of the ingredients in the compound is classified as being on Tier 4 then a Tier 4 copayment will apply.

Please note: You should refer to your enrollment materials, check the Drug Pricing / Coverage information on www.myuhc.com, or call the Customer Care number on your ID card for more information about your benefit plan.

Who decides which medications get placed in which tier?

The UnitedHealthcare PDL Management Committee makes tier placement decisions to help ensure access to a wide range of medications and control health care costs for you and your employer or health plan. The PDL Management Committee is comprised of senior level physicians and business leaders. You and your doctor decide which medication is appropriate for you.

What factors does the PDL Management Committee look at to make tier placement decisions?

The PDL Management Committee decides the tier placement of a particular prescription medication based upon clinical information from the UnitedHealthcare Pharmacy and Therapeutics (P&T) Committee and economic and financial considerations. The Committee looks at the overall health care value of a particular medication in order to balance the need for flexibility and choice for our members and an affordable pharmacy benefit for employer groups and health plans.

How often will prescription medications change tiers?

Medications may move to a higher tier up to three times per calendar year, depending on your benefit. Additionally, when a brand name medication becomes available as a generic, the tier status of the brand name medication and its corresponding generic will be evaluated. When a medication changes tiers, you may be required to pay more or less for that medication. These changes may occur without prior notice to you. For the most current information on your pharmacy coverage, please call the Customer Care number on your ID card or visit www.myuhc.com.

What is the difference between brand name and generic medications?

Generic medications contain the same active ingredients as brand name medications, but they often cost less. Generic medications become available after the patent on the brand name medication expires. At that time, other companies are permitted to manufacture an FDA-approved, chemically equivalent medication. Many companies that make brand name medications also produce and market generic medications.

The next time your doctor gives you a prescription for a brand name medication, ask if a generic equivalent is available and if it might be appropriate for you. While there are exceptions, generic medications are usually your lowest cost option. Please note that some generic medications may be in Tier 2, Tier 3, or Tier 4 and will not have the lowest copayment available under your pharmacy benefit plan. Go to myuhc.com to determine the copayment for your generic medication.

Why is the medication that I am currently taking no longer covered?

Medications may be excluded from coverage under your pharmacy benefit. For example, a prescription medication may be excluded from coverage when it is therapeutically equivalent to an over-the-counter medication. Medications on the PDL and other over-the-counter medications may be available.

When should I consider discussing over-the-counter or non-prescription medications with my doctor?

An over-the-counter medication can be an appropriate treatment for many conditions. Consult your doctor about over-the-counter alternatives to treat your condition. These medications are not covered under your pharmacy benefit, but they may cost less than your out-of-pocket expense for prescription medications.

Why are there notations next to certain medications in the PDL, and what do they mean?

The specific definitions for these notations (QLL, QD, N, etc.) are listed at the bottom of each page of the PDL and refer to our pharmacy programs. These programs can help:

- Confirm coverage based on your benefit plan
- Alert pharmacists and doctors of potentially harmful medication interactions
- Notify your pharmacist and doctor of duplication in treatments

Please call Customer Care if you need additional information about these notations.

What should I do if I use a self-administered injectable medication?

You may have coverage for self-administered injectable medications through your pharmacy benefit plan. UnitedHealthcare has developed a specialty pharmacy network for these medications. Please call our toll-free Specialty Pharmacy Referral Line at 1-866-429-8177 where a representative will answer questions about our program and then transfer you to a specialty pharmacy based on your particular specialty medication prescription.

How do I access updated information about my pharmacy benefit?

Since the PDL may change periodically, we encourage you to visit www.myuhc.com or call the Customer Care number on your ID card for more current information.

Log on to myuhc.com for the following pharmacy resources and tools:

- Pharmacy benefit and coverage information
- Specific copayment amounts for prescription medications
- Possible lower-cost medication alternatives
- A list of medications based on a specific medical condition
- Medication interactions and side effects, etc.
- Locate a participating retail pharmacy by zip code
- Review your prescription history

With your mail order pharmacy benefit, you can also:

- Refill prescriptions
- Check the status of your order
- Set up e-mail reminders for refills
- Manage your account

What if I still have questions?

Please call the Customer Care number on your ID card. Representatives are available to assist you 24 hours a day, except Thanksgiving and Christmas.

If you have pharmacy benefit coverage with UnitedHealthcare, you may learn more about your benefit by visiting www.myuhc.com or by calling the Customer Care telephone number printed on your ID card. If you are not currently enrolled with UnitedHealthcare for pharmacy benefit coverage, you may access www.myuhc.com for additional information during your open enrollment period or you may contact your employer or health plan for additional information.

In certain documents, the Prescription Drug List (PDL) was referred to as the "Preferred Drug List (PDL)." This change in descriptive terms does not affect your benefit coverage. Where differences are noted between this PDL reference guide and your benefit plan documents, the benefit plan documents will govern.

2008 Four-Tier Prescription Drug List Reference Guide

Tier One

Acebutolol	Bromocriptine	Dicloxacillin
Acetaminophen with Caffeine and Butalbital	Bumetanide	Dicyclomine
Acetaminophen with Codeine QLL/QD	Bupropion QLL	Diflorasone
Acetaminophen with Codeine, Caffeine and Butalbital QLL/QD	Bupropion Sustained Action QLL, N	Diflunisal
Acetaminophen with Hydrocodone QLL/QD	Buspirone	Digoxin
Acetazolamide	Calcipotriene Solution, Topical QLL	Diltiazem Controlled Release Capsule
Acetic Acid with Hydrocortisone Otic Solution	Calcitriol	Diltiazem Sustained Release 12 Hours Capsule
Acyclovir Tablet, Capsule, Suspension	Captopril	Diltiazem Tablet
Albuterol Extended Release Tablet	Captopril with Hydrochlorothiazide	Diphenoxylate
Albuterol Inhalation Solution	Carbamazepine	Diphenoxylate with Atropine
Alendronate QLL	Carbidopa/Levodopa	Dipyridamole
Allopurinol	Carisoprodol	Doxazosin
Alprazolam	Carvedilol	Doxepin
Alprazolam Extended Release	Cefaclor	Doxycycline
Amantadine Tablet, Capsule, Syrup	Cefadroxil	Dronabinol
Amiloride with Hydrochlorothiazide	Cefuroxime Tablet	Econazole
Amiodarone	Cephalexin	Enalapril
Amitriptyline	Chlordiazepoxide	Enalapril with Hydrochlorothiazide
Amitriptyline with Chlordiazepoxide	Chlorhexidine	Enpresse
Amitriptyline with Perphenazine	Chlorthalidone	Ergotamine Tartrate, Belladonna Alkaloids and Phenobarbital
Amlodipine Besylate	Chlorzoxazone	Errin
Amoxicillin	Cholestyramine	Erythromycin Base 250, 333mg
Amoxicillin with Potassium Clavulanate	Cholestyramine with Aspartame	Erythromycin Ethylsuccinate
Amphetamine with Dextroamphetamine Salt Combination	Ciclopirox Gel, Topical	Erythromycin Stearate
Ampicillin	Cilostazol	Erythromycin with Benzoyl Peroxide
Antipyrine with Benzocaine Otic Solution	Ciprofloxacin	Estradiol Patch QLL
Asmanex QLL	Citalopram QLL	Estropipate
Aspirin with Caffeine and Butalbital	Clarithromycin Tablet	Etidronate Disodium
Aspirin with Codeine, Caffeine and Butalbital	Clidinium with Chlordiazepoxide	Etodolac
Atenolol	Clindamycin Capsule	Fast Take Test Strips QLL, DS
Atenolol with Chlorthalidone	Clindamycin Gel, Soln, Lotion, Swabs	Felodipine
Aviane	Clindamycin Vaginal Cream	Fenofibrate
Azathioprine	Clobetasol	Flecainide
Azithromycin	Clomiphene	Fluconazole 50, 100, 200mg N
Baclofen	Clomipramine	Fluconazole 150mg QLL
Benazepril	Clonazepam	Fludrocortisone
Benazepril with Hydrochlorothiazide	Clonidine	Flunisolide Nasal Spray QLL
Benzonatate	Clorazepate	Fluocinolone
Benzotropine	Clotrimazole Troches	Fluocinonide
Betamethasone Dipropionate Augmented Cream	Clotrimazole with Betamethasone	Fluocinonide-E
Betamethasone Dipropionate Cream, Lotion, Ointment, Gel	Colestipol	Fluorometholone
Betamethasone Valerate	Cromolyn	Fluorouracil Cream
Betamethasone with Clotrimazole	Cyclessa	Fluoxetine QLL
Bisoprolol	Cyclobenzaprine	Flurazepam
Bisoprolol with Hydrochlorothiazide	Cyproheptadine	Flurbiprofen
	Desipramine	Fluticasone Nasal Spray QLL
	Desmopressin	Fluvoxamine QLL
	Desogen	Folic Acid
	Desonide	Foradil QLL
	Desoximetasone	Fosinopril
	Dexamethasone	Fosinopril with Hydrochlorothiazide
	Dextroamphetamine	Freestyle Lite Test Strips QLL, DS
	Dextroamphetamine Sustained Release	Freestyle Test Strips QLL, DS
	Diazepam	
	Diclofenac	

Some medications are noted with N, QD, QLL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

P = Progression Rx.

QD = Quantity Duration. Some medications have a limited amount that can be covered for a specific period of time.

QLL = Quantity Level Limit. Some medications have a limited amount that can be covered at one time.

DS = Diabetic Supplies. Diabetic supplies may be covered by your benefit plan.

½T = Eligible for Half Tablet Program.

2008 Four-Tier Prescription Drug List Reference Guide

Frova QLL	Maxalt QLL	Nitroglycerin
Furosemide	Maxalt MLT QLL	Norethindrone
Gabapentin Capsule, Tablet	Mebendazole	Nortrel
Gemfibrozil	Medroxyprogesterone 150mg/ml QLL	Nortriptyline
Gentamicin	Medroxyprogesterone Tablet	Novolin Vials
Glimepiride	Mefloquine QLL	Novolog Vials
Glipizide	Megestrol	Nystatin
Glipizide Extended-Release	Meloxicam QLL	Nystatin with Triamcinolone
Glyburide	Meperidine	Ofloxacin Eye Drops
Glyburide Micronized	Meperidine with Promethazine	Ofloxacin Otic Drops
Guanfacine	Metformin	Ogestrel
Halobetasol Cream, Ointment	Metformin Extended-Release	Ondansetron QLL
Haloperidol	Methadone	One Touch Test Strips QLL, DS
Hydralazine	Methimazole	One Touch Ultra Test Strips QLL, DS
Hydrochlorothiazide	Methocarbamol	Orapred Oral Solution
Hydrocodone with Homatropine	Methotrexate	Oxaprozin
Hydrocortisone Acetate Suppositories	Methylidopa	Oxazepam
Hydrocortisone Valerate	Methylphenidate	Oxybutynin
Hydromorphone	Methylphenidate Extended-Release	Oxycodone
Hydroxychloroquine	Methylprednisolone	Oxycodone with Acetaminophen
Hydroxyzine	Methyltestosterone with Esterfied Estrogens	QLL/QD
Ibuprofen - Prescription strengths only	Metoclopramide	Oxycodone with Aspirin
Ibuprofen with Hydrocodone	Metolazone	Oxycodone with Ibuprofen QLL
Imipramine	Metoprolol	Paroxetine QLL
Indapamide	Metoprolol Succinate Sustained Release 25mg	PEG 3350/Powder for Solution
Indomethacin	Metronidazole	Penicillin V Potassium
Ipratropium Inhalation Solution	Metronidazole Cream	Pentoxifylline
Isometheptene, Dichloralphenazone and Acetaminophen	Microgestin	Permethrin Cream
Isoniazid	Microgestin FE	Phenazopyridine
Isosorbide Dinitrate	Minoxidil Tablet	Phenobarbital
Isosorbide Mononitrate	Mirtazapine QLL	Phenylephrine with Chlorpheniramine and Scopolamine
Isradipine	Mirtazapine Dispersible Tablet QLL	Phenylephrine with Hydrocodone
Itraconazole QLL, N	Misoprostol	Phenytoin
Junel	Mometasone	Pindolol
Junel FE	Mononessa	Piroxicam
Kariva	Morphine	Polymyxin B with Trimethoprim
Ketoconazole	Morphine Sulfate Controlled Release QLL/QD	Portia
Ketoprofen	Mupirocin Ointment	Potassium Chloride
Ketorolac	Nadolol	Potassium Citrate
Labetalol	Nadolol with Bendroflumethiazide	Pravastatin QLL/QD, 1/2T
Lactulose	Naproxen - Prescription strengths only	Prazosin
Leflunomide QLL	Necon	Precision Q-I-D Test Strips QLL, DS
Lessina	Nefazodone QLL	Precision Xtra Test Strips QLL, DS
Levothyroxine	Neomycin/Polymyxin B/Dexamethasone	Prednisolone
Levora	Neomycin/Polymyxin/Gramicidin	Prednisone
Lidocaine Viscous	Neomycin/Polymyxin/Hydrocortisone	Prenatal Vitamins - Generic prescription strengths only
Lisinopril	Nifedipine	Primidone
Lisinopril with Hydrochlorothiazide	Nifedipine Controlled-Release	Probenecid
Lithium Carbonate	Nifedipine Extended Release	Prochlorperazine
Lithium Carbonate Controlled-Release	Nitrofurantoin/Nitrofurantoin Macrocrystals	Promethazine
Lithium Carbonate Extended-Release		Promethazine with Codeine
Lo/Ovral		Promethazine with Dextromethorphan
Lorazepam		Promethazine with Phenylephrine
Lovastatin QLL/QD		

Some medications are noted with N, QD, QLL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

P = Progression Rx.

QD = Quantity Duration. Some medications have a limited amount that can be covered for a specific period of time.

QLL = Quantity Level Limit. Some medications have a limited amount that can be covered at one time.

DS = Diabetic Supplies. Diabetic supplies may be covered by your benefit plan.

1/2T = Eligible for Half Tablet Program.

Excluded = Many benefit plans exclude coverage of medications that are classified by the Pharmacy and Therapeutics Committee as therapeutically equivalent to over-the-counter medications. Check your benefit plan documents for coverage information or call the Customer Care number on your ID card for more information.

NOTE:

- **Compounded prescriptions are Tier Three**
- **Insulin pens & cartridges are Tier Three except for Novolin and Novolog pens and cartridges which are Tier Two.**

Some medications are noted with N, QD, QLL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

P = Progression Rx.

QD = Quantity Duration. Some medications have a limited amount that can be covered for a specific period of time.

QLL = Quantity Level Limit. Some medications have a limited amount that can be covered at one time.

DS = Diabetic Supplies. Diabetic supplies may be covered by your benefit plan.

1/2T = Eligible for Half Tablet Program.

Excluded = Many benefit plans exclude coverage of medications that are classified by the Pharmacy and Therapeutics Committee as therapeutically equivalent to over-the-counter medications. Check your benefit plan documents for coverage information or call the Customer Care number on your ID card for more information.
