

2009 Four-Tier Prescription Drug List Reference Guide

Your UnitedHealthcare pharmacy benefit offers flexibility and choice in finding the right medication for you.

This guide will:

1. Help you understand your medication choices and make informed decisions.
2. Help you understand which questions to ask your doctor or pharmacist.

What is a Prescription Drug List (PDL)?

A PDL is a list of Food and Drug Administration (FDA)-approved brand name and generic medications.

Your UnitedHealthcare pharmacy benefit provides coverage for a comprehensive selection of prescription medications. Below you will find some commonly prescribed medications for certain conditions. You and your doctor may refer to this list to select the right medication to meet your needs.

The benefit plan documents provided by your employer or health plan include a Summary Plan Description (SPD) or a Certificate of Coverage (COC). Please refer to these documents to determine which medications are covered under your individual plan.

Understanding Tiers

Prescription medications are categorized within four tiers. Each tier is assigned a copayment, the amount you pay when you fill a prescription, which is determined by your employer or health plan. Consult your benefit plan documents to find out the specific copayments, coinsurance and deductibles that are part of your plan. You and your doctor decide which medication is appropriate for you.

Tier 1 – Your Lowest-Cost Option

This is your lowest copayment option. For the lowest out-of-pocket expense, you should always consider Tier 1 medications if you and your doctor decide they are right for your treatment.

Tier 2 and Tier 3 – Your Midrange-Cost Options

Consider Tier 2 medications if you and your doctor decide that a Tier 2 medication is right for you.

If you are currently taking a medication in Tier 3, ask your doctor whether there are Tier 1 or Tier 2 alternatives that may be right for your treatment. Sometimes there are alternatives available in Tier 1 or Tier 2 that may be appropriate to treat your condition.

Tier 4 – Your Highest-Cost Option

This is your highest copayment option. Sometimes there are alternatives available in Tier 1, Tier 2, or Tier 3 that may be appropriate to treat your condition. If you are currently taking a medication in Tier 4, ask your doctor whether there are Tier 1, Tier 2, or Tier 3 alternatives that may be right for your treatment.

Compounded medications, medications with one or more ingredients that are prepared “on-site” by a pharmacist, are classified at the Tier 3 level. However, if any one of the ingredients in the compound is classified as being on Tier 4 then a Tier 4 copayment will apply.

Please note: You should refer to your enrollment materials, check the Drug Pricing / Coverage information on www.myuhc.com, or call the Customer Care number on your ID card for more information about your benefit plan.

Who decides which medications get placed in which tier?

The UnitedHealthcare PDL Management Committee makes tier placement decisions to help ensure access to a wide range of medications and control health care costs for you and your employer or health plan. The PDL Management Committee is comprised of senior level physicians and business leaders. You and your doctor decide which medication is appropriate for you.

What factors does the PDL Management Committee look at to make tier placement decisions?

The PDL Management Committee decides the tier placement of a particular prescription medication based upon clinical information from the UnitedHealthcare Pharmacy and Therapeutics (P&T) Committee and economic and financial considerations. The Committee looks at the overall health care value of a particular medication in order to balance the need for flexibility and choice for our members and an affordable pharmacy benefit for employer groups and health plans.

How often will prescription medications change tiers?

Medications may move to a higher tier up to three times per calendar year, depending on your benefit. Additionally, when a brand name medication becomes available as a generic, the tier status of the brand name medication and its corresponding generic will be evaluated. When a medication changes tiers, you may be required to pay more or less for that medication. These changes may occur without prior notice to you. For the most current information on your pharmacy coverage, please call the Customer Care number on your ID card or visit www.myuhc.com.

What is the difference between brand name and generic medications?

Generic medications contain the same active ingredients as brand name medications, but they often cost less. Generic medications become available after the patent on the brand name medication expires. At that time, other companies are permitted to manufacture an FDA-approved, chemically equivalent medication. Many companies that make brand name medications also produce and market generic medications.

The next time your doctor gives you a prescription for a brand name medication, ask if a generic equivalent is available and if it might be appropriate for you. While there are exceptions, generic medications are usually your lowest cost option. Please note that some generic medications may be in Tier 2, Tier 3, or Tier 4 and will not have the lowest copayment available under your pharmacy benefit plan. Go to myuhc.com to determine the copayment for your generic medication.

Why is the medication that I am currently taking no longer covered?

Medications may be excluded from coverage under your pharmacy benefit. For example, a prescription medication may be excluded from coverage when it is therapeutically equivalent to an over-the-counter medication. Medications on the PDL and other over-the-counter medications may be available.

When should I consider discussing over-the-counter or non-prescription medications with my doctor?

An over-the-counter medication can be an appropriate treatment for many conditions. Consult your doctor about over-the-counter alternatives to treat your condition. These medications are not covered under your pharmacy benefit, but they may cost less than your out-of-pocket expense for prescription medications.

Why are there notations next to certain medications in the PDL, and what do they mean?

The specific definitions for these notations (QLL, QD, N, etc.) are listed at the bottom of each page of the PDL and refer to our pharmacy programs. These programs can help:

- Confirm coverage based on your benefit plan
- Alert pharmacists and doctors of potentially harmful medication interactions
- Notify your pharmacist and doctor of duplication in treatments

Please call Customer Care if you need additional information about these notations.

What should I do if I use a self-administered injectable medication?

You may have coverage for self-administered injectable medications through your pharmacy benefit plan. UnitedHealthcare has developed a specialty pharmacy network for these medications. Please call our toll-free Specialty Pharmacy Referral Line at 1-866-429-8177 where a representative will answer questions about our program and then transfer you to a specialty pharmacy based on your particular specialty medication prescription.

How do I access updated information about my pharmacy benefit?

Since the PDL may change periodically, we encourage you to visit www.myuhc.com or call the Customer Care number on your ID card for more current information.

Log on to myuhc.com for the following pharmacy resources and tools:

- Pharmacy benefit and coverage information
- Specific copayment amounts for prescription medications
- Possible lower-cost medication alternatives
- A list of medications based on a specific medical condition
- Medication interactions and side effects, etc.
- Locate a participating retail pharmacy by zip code
- Review your prescription history

With your mail order pharmacy benefit, you can also:

- Refill prescriptions
- Check the status of your order
- Set up e-mail reminders for refills
- Manage your account

What if I still have questions?

Please call the Customer Care number on your ID card. Representatives are available to assist you 24 hours a day, except Thanksgiving and Christmas.

If you have pharmacy benefit coverage with UnitedHealthcare, you may learn more about your benefit by visiting www.myuhc.com or by calling the Customer Care telephone number printed on your ID card. If you are not currently enrolled with UnitedHealthcare for pharmacy benefit coverage, you may access www.myuhc.com for additional information during your open enrollment period or you may contact your employer or health plan for additional information.

In certain documents, the Prescription Drug List (PDL) was referred to as the "Preferred Drug List (PDL)." This change in descriptive terms does not affect your benefit coverage. Where differences are noted between this PDL reference guide and your benefit plan documents, the benefit plan documents will govern.

2009 Four-Tier Prescription Drug List Reference Guide

Tier One

Acebutolol	Bisoprolol with Hydrochlorothiazide	Diclofenac
Acetaminophen with Caffeine and Butalbital	Bromocriptine	Dicloxacillin
Acetaminophen with Codeine QLL/QD	Bumetanide	Dicyclomine
Acetaminophen with Codeine, Caffeine and Butalbital QLL/QD	Bupropion	Diflorasone
Acetaminophen with Hydrocodone QLL/QD	Bupropion Sustained Action N	Diffunisal
Acetazolamide	Buspirone	Digoxin
Acetic Acid with Hydrocortisone Otic Solution	Calcipotriene Solution, Topical QLL	Diltiazem Controlled Release Capsule
Acyclovir Tablet, Capsule, Suspension	Calcitriol	Diltiazem Sustained Release 12 Hours Capsule
Albuterol Extended Release Tablet	Captopril	Diltiazem Tablet
Albuterol Inhalation Solution	Captopril with Hydrochlorothiazide	Diphenoxylate
Alendronate QLL	Carbamazepine	Diphenoxylate with Atropine
Allopurinol	Carbidopa/Levodopa	Dipyridamole
Alprazolam	Carisoprodol	Doxazosin
Alprazolam Extended Release	Carvedilol	Doxepin
Amantadine Tablet, Capsule, Syrup	Cefaclor	Doxycycline
Amiloride with Hydrochlorothiazide	Cefadroxil	Dronabinol
Amiodarone	Cefuroxime Tablet	Econazole
Amitriptyline	Cephalexin	Enalapril
Amitriptyline with Chlordiazepoxide	Cesia	Enalapril with Hydrochlorothiazide
Amitriptyline with Perphenazine	Chlordiazepoxide	Enpresse
Amlodipine Besylate	Chlorhexidine	Ergotamine Tartrate, Belladonna Alkaloids and Phenobarbital
Amoxicillin	Chlorthalidone	Errin
Amoxicillin with Potassium Clavulanate	Chlorzoxazone	Erythromycin Base 250, 333mg
Amphetamine with Dextroamphetamine Salt Combination	Cholestyramine	Erythromycin Ethylsuccinate
Ampicillin	Cholestyramine with Aspartame	Erythromycin Stearate
Antipyrine with Benzocaine Otic Solution	Ciclopirox Gel, Topical	Erythromycin with Benzoyl Peroxide
Apri	Cilostazol	Estradiol Patch QLL
Asmanex QLL	Ciprofloxacin	Estropipate
Aspirin with Caffeine and Butalbital	Citalopram	Etidronate Disodium
Aspirin with Codeine, Caffeine and Butalbital	Clarithromycin Tablet	Etodolac
Atenolol	Clidinium with Chlordiazepoxide	Fast Take Test Strips QLL, DS
Atenolol with Chlorthalidone	Clindamycin Capsule	Felodipine
Aviane	Clindamycin Gel, Soln, Lotion, Swabs	Fenofibrate Micronized 54, 67, 134, 160, 200mg
Azathioprine	Clindamycin Vaginal Cream	Flecainide
Azithromycin	Clobetasol	Fluconazole 50, 100, 200mg N
Baclofen	Clomiphene	Fluconazole 150mg
Benazepril	Clomipramine	Fludrocortisone
Benazepril with Hydrochlorothiazide	Clonazepam	Flunisolide Nasal Spray
Benzonatate	Clonidine	Fluocinolone
Benzotropine	Clorazepate	Fluocinonide
Betamethasone Dipropionate Augmented Cream	Clotrimazole Troches	Fluocinonide-E
Betamethasone Dipropionate Cream, Lotion, Ointment, Gel	Clotrimazole with Betamethasone	Fluorometholone
Betamethasone Valerate	Colestipol	Fluorouracil Cream
Betamethasone with Clotrimazole	Cromolyn	Fluoxetine Capsule
Bisoprolol	Cryselle	Flurazepam
	Cyclobenzaprine	Flurbiprofen
	Cyproheptadine	Fluticasone Nasal Spray QLL
	Desipramine	Fluvoxamine
	Desmopressin	Folic Acid
	Desonide	Foradil QLL
	Desoximetasone	Fosinopril
	Dexamethasone	Fosinopril with Hydrochlorothiazide
	Dextroamphetamine	
	Dextroamphetamine Sustained Release	
	Diazepam	

Some medications are noted with N, QD, QLL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

P = Progression Rx.

QD = Quantity Duration. Some medications have a limited amount that can be covered for a specific period of time.

QLL = Quantity Level Limit. Some medications have a limited amount that can be covered at one time.

DS = Diabetic Supplies. Diabetic supplies may be covered by your benefit plan.

½T = Eligible for Half Tablet Program.

2009 Four-Tier Prescription Drug List Reference Guide

Freestyle Lite Test Strips QLL, DS	Lithium Carbonate Controlled-Release	Neomycin/Polymyxin/Hydrocortisone
Freestyle Test Strips QLL, DS	Lithium Carbonate Extended-Release	Nifedipine
Frova QLL	Lorazepam	Nifedipine Controlled-Release
Furosemide	Lovastatin	Nifedipine Extended Release
Gabapentin Capsule, Tablet	Low-Ogestrel	Nitrofurantoin/Nitrofurantoin Macrocrystals
Galantamine	Maxalt QLL	Nitrofurantoin Macrocrystals
Gemfibrozil	Maxalt MLT QLL	Nitroglycerin
Gentamicin	Mebendazole	Norethindrone
Glimepiride	Medroxyprogesterone 150mg/ml QLL	Nortrel
Glipizide	Medroxyprogesterone Tablet	Nortriptyline
Glipizide Extended-Release	Mefloquine	Novolin Vials
Glyburide	Megestrol	Novolog Vials
Glyburide Micronized	Meloxicam	Nystatin
Guanfacine	Meperidine	Nystatin with Triamcinolone
Halobetasol Cream, Ointment	Meperidine with Promethazine	Ofloxacin Eye Drops
Haloperidol	Metformin	Ofloxacin Otic Drops
Hydralazine	Metformin Extended-Release	Ogestrel
Hydrochlorothiazide	Methadone	Ondansetron QLL
Hydrocodone with Homatropine	Methimazole	One Touch Test Strips QLL, DS
Hydrocortisone Acetate Suppositories	Methocarbamol	One Touch Ultra Test Strips QLL, DS
Hydrocortisone Valerate	Methotrexate	Orapred Oral Solution
Hydromorphone	Methylidopa	Oxaprozin
Hydroxychloroquine	Methylphenidate	Oxazepam
Hydroxyzine	Methylphenidate Extended-Release	Oxybutynin
Ibuprofen - Prescription strengths only	Methylprednisolone	Oxycodone
Ibuprofen with Hydrocodone	Methyltestosterone with Esterfied Estrogens	Oxycodone with Acetaminophen QLL/QD
Imipramine	Metoclopramide	Oxycodone with Aspirin
Indapamide	Metolazone	Oxycodone with Ibuprofen QLL
Indomethacin	Metoprolol	Paroxetine
Ipratropium Inhalation Solution	Metoprolol Succinate Sustained Release 25mg	PEG 3350/Powder for Solution
Isometheptene, Dichloralphenazone and Acetaminophen	Metronidazole	Penicillin V Potassium
Isoniazid	Metronidazole Cream	Pentoxifylline
Isosorbide Dinitrate	Microgestin	Permethrin Cream
Isosorbide Mononitrate	Microgestin FE	Phenazopyridine
Isradipine	Minocycline	Phenobarbital
Itraconazole QD, N	Minoxidil Tablet	Phenylephrine with Chlorpheniramine and Scopolamine
Junel	Mirtazapine	Phenylephrine with Hydrocodone
Junel FE	Mirtazapine Dispersible Tablet QLL	Phenytoin
Kariva	Misoprostol	Pindolol
Ketoconazole	Mometasone	Piroxicam
Ketoprofen	Mononessa	Polymyxin B with Trimethoprim
Ketorolac	Morphine	Portia
Labetalol	Morphine Sulfate Controlled Release QLL/QD	Potassium Chloride
Lactulose	Mupirocin Ointment	Potassium Citrate
Lamotrigine Dispersible Tablet	Mycophenolate Mofetil	Pravastatin 1/2T
Leflunomide	Nadolol	Prazosin
Lessina	Nadolol with Bendroflumethiazide	Precision Q-I-D Test Strips QLL, DS
Levothyroxine	Naproxen - Prescription strengths only	Precision Xtra Test Strips QLL, DS
Levora	Necon	Prednisolone
Levorphanol Tartrate	Nefazodone	Prednisone
Lidocaine Viscous	Neomycin/Polymyxin B/Dexamethasone	Prenatal Vitamins - Generic prescription strengths only
Lisinopril	Neomycin/Polymyxin/Gramicidin	
Lisinopril with Hydrochlorothiazide		
Lithium Carbonate		

Some medications are noted with N, QD, QLL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

P = Progression Rx.

NOTE:

- **Compounded prescriptions are Tier Three**
- **Insulin pens & cartridges are Tier Three except for Novolin and Novolog pens and cartridges which are Tier Two.**

Some medications are noted with N, QD, QLL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

P = Progression Rx.

QD = Quantity Duration. Some medications have a limited amount that can be covered for a specific period of time.

QLL = Quantity Level Limit. Some medications have a limited amount that can be covered at one time.

DS = Diabetic Supplies. Diabetic supplies may be covered by your benefit plan.

1/2T = Eligible for Half Tablet Program.

2009 Four-Tier Prescription Drug List Reference Guide
